

The 11th Global Network Forum on Infection and Immunity:

# Synergistic Innovation of Microbiology, Mucosal Immunology and Vaccinology

Free to Attend 参加自由  
(Registration Required)

## **Rob Knight, University of California, San Diego**

Scaling microbiome studies to address global problems

## **Satoshi Uematsu, Osaka Metropolitan University**

An enterococcal phage-derived enzyme suppresses graft-versus-host disease

## **Eiryō Kawakami, RIKEN**

Utilization of AI and data science in vaccine research

## **Iliyan Iliev, Weill Cornell Medicine**

The Evolution of Fungal Symbiosis Within the Host: An Immunological Perspective

## **Yoshimasa Takahashi, National Institute of Infectious Diseases**

Controlling antibody breadth to mutating viruses

## **Hein Min Tun, The Chinese University of Hong Kong**

Role of early-life gut microbiome in orchestrating immune system

## **Kenya Honda, Keio University, RIKEN**

Mining the gut microbiota to develop rationally designed microbial therapeutics

## **Hiutung Chu, University of California, San Diego**

Host glycans shape early-life gut colonization and immune modulation

**2/6** (Thu), 2025 **Flashtalk 13:00 & Poster Session 15:00**

Lecture Room 1, 3, Active Learning Space

Research Building of Medical Science, Chiba University

Application  
Site (Japanese)

**2/7** (Fri), 2025 **Invited Speakers' Talk 9:30~17:00**

Conference Room 1

Research Building of Medical Science, Chiba University

Application  
Site (English)

## **Organizing committee**

Yoshiyuki Goto (Chiba University)

Hein Min Tun (The Chinese University of Hong Kong)

Mitsutoshi Yoneyama (Chiba University)

Naruhiko Ishiwada (Chiba University)

Shinobu Saijo (Chiba University)

Akira Watanabe (Chiba University)

Akiko Takaya (Chiba University)

Medical Mycology Research Center, Chiba University
